Dimensions are in millimetres (+/- 0.1 mm). Use of socketed connection is required. Soldering or cutting the connection pins may permanently damage the sensor and void the warranty.

Overrange (ppm) Sensitivity minimum range* Sensitivity typical range* Full stabilisation time Warm up time Offset Voltage (mV) Response Time (t ₉₀ sec)	200 10,000 0.120 mV/ppm 0.300 mV/ppm 5 minutes 5 seconds 40-75 5

*Gain numbers measured with isobutylene at room temperature and sea level.

For further information on the performance of this sensor, on other sensors in the range or any other subject, please contact Alphasense Ltd. or visit our website at "www.alphasense.com".

Fig. 2 PID-AG5 Response (0-10,000ppm)

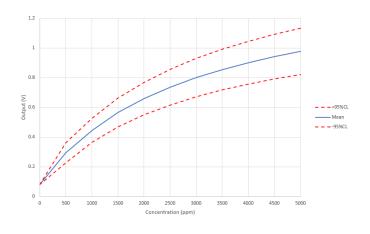

Figure 2 shows the response curve of 20 sensors throughout the entire operating range.

Fig. 3 Sensitivity Temperature Dependence

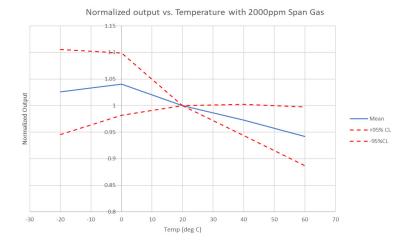

Figure 3 shows the mean and ±95% confidence intervals of the response of the sensors to 2,000 ppm isobutylene over the entire temperature range. The temperature response follows the ideal gas law.

PID-AG5 Replacement Parts/Consumables List

Part Number	Description	Part Number	Description
001-0036-00	Gas Hood	001-0043-00	Maintenance Kit, which includes: 2 ea Polishing Disc
001-0037-00	Cap with Key		2 ea 10 µm, Cloth, Bottom Filter
001-0038-00	Spacer		2 ea 1 μm, Teflon, Top Filter, Large 1 ea Padded Swab
001-0039-00	1 μm, Teflon, Top Filter, Large	001-0044-00	Sensor Rebuild Kit, which includes:
001-0040-00	10 µm, Cloth, Bottom Filter		2 ea 10.6 eV Lamp 1 ea Detector Ionisation Cell Assembly
001-0041-00	Detector Ionisation Cell Assembly		1 ea 1 μm, Teflon, Top Filter, Large 1 ea 10 μm, Cloth, Bottom Filter
001-0042-00	10.6 eV Lamp		

At the end of the product's life, do not dispose of any electronic sensor, component or instrument in the domestic waste, but contact the instrument manufacturer, Alphasense or its distributor for disposal instructions. NOTE: all sensors are tested at ambient environmental conditions unless otherwise stated. As applications of use are outside our control, the information provided is given without legal responsibility. Customers should test under their own conditions, to ensure that the sensors are suitable for their own requirements.

In the interest of continued product improvement, we reserve the right to change design features and specifications without prior notification. The data contained in this document is for guidance only. Alphasense Ltd accepts no liability for any consequential losses, injury or damage resulting from the use of this document or the information contained within. (©ALPHASENSE LTD) Doc. Ref. PIDAG5/MAR23

*Gain numbers measured with isobutylene at room temperature and sea level.
